

SOULBODY BREATH®

Breathwork Facilitator Training

A 200 HOUR TRAUMA-INFORMED TRAINING

EUROPE • SEPT 2026 - FEB 2027

You felt something the first time breath took you somewhere

Maybe it was your own session, a moment of clarity or release you hadn't expected. Maybe it was watching someone else arrive in their body for the first time, and feeling the quiet privilege of holding that space.

Whatever it was, it stayed with you. And something in you began asking: what if I could offer this to others?

The SOULBODY BREATH® Facilitator Training was built for that moment. To give you the depth, the skill, and the real confidence to hold transformative spaces with integrity and heart.

This is a container you inhabit over six months, through practice, peer connection, and personal evolution, until facilitating breathwork becomes something you embody, not just something you do.

If the calling is there, this training will meet it.
One breath at a time,

Jenni Turner
Founder, SOULBODY BREATH®

Science, soul and the art of holding space.

The breathwork world has grown fast. And with that growth has come training that moves quickly, teaches technique, and sends people out before they are truly ready to hold another human being safely.

This training was built to answer that. A 200-hour, trauma-informed programme that takes the science of the breath as seriously as the soul of it. Which places space-holding, ethics, and your own personal evolution at the centre of everything.

**Trauma-informed from the ground up**

Every module is built around nervous system awareness, consent, and ethical practice as the foundation.

Your own voice, not a copy of someone else's

You will graduate with a facilitation identity that is entirely yours. One that's grounded in your strengths, your story, and your unique way of leading.

No licensing fees or ongoing agreements

Once certified, you are free. No conditions, no restrictions, no ongoing fees to share the breath with others.

A living container, not a curriculum to consume

Live calls, peer practice, breathwork journeys, 1:1 mentorship with Jenni, and an in-person immersive. This is so much more than a course.

Support that doesn't stop at graduation

Lifetime access to the online portal, continued community connection, and the foundations to build a sustainable practice from day one.

- ✓ Professional certification with no ongoing licensing fees.

Learning Objectives

These objectives help you to become fully competent in facilitating transformative 1:1 and group spaces. They take you beyond what it means “to facilitate” and support you embody becoming an impactful facilitator and lead from heart. You’ll graduate feeling confident and ready to teach and charge clients right from the beginning, with a business plan to support you.

- ✓ Explain the core physiology of breathwork, including CO₂/O₂ dynamics, nervous system activation, and how breath retentions influence state.
- ✓ Understand the neuroscience of breath and breath psychology, to support clients create lasting impact across their emotional, mental and spiritual wellness.
- ✓ Demonstrate safe, skillful facilitation of conscious connected breathing, SOULBODY BREATH® and a variety of pranayama practices for individuals and groups.
- ✓ Screen participants appropriately by identifying contraindications, risk factors, and suitability for different breathwork intensities and formats.
- ✓ Establish and communicate clear consent, boundaries, and session agreements to create psychological and physical safety.
- ✓ Apply trauma-informed, somatic principles to support regulation, titration, and choice throughout a journey.
- ✓ Read the room and track nervous system cues to adapt pacing, language, and techniques in real time.
- ✓ Use practical co-regulation and grounding tools to support participants during activation, overwhelm, or emotional release.

- ✓ Facilitate integration so insights become embodied change, including debrief structures, reflection prompts, and post-session practices.¹
- ✓ Guide somatic awareness skills to help clients build embodied literacy, not just catharsis.
- ✓ Work with common patterns that show up in sessions with steadiness and ethical judgement.
- ✓ Structure sessions for different contexts (1:1, small group, corporate, retreat, festival) including timing, music design, room setup, and energy management.
- ✓ Use voice, language, and cueing techniques to lead with clarity, confidence, and attunement, including pacing, tone, and non-triggering phrasing.
- ✓ Maintain professional ethics and conduct, including confidentiality, scope of practice, referrals, and ongoing supervision/education.
- ✓ Develop your own facilitation identity by integrating your strengths, lived experience, and unique style without copying or performing.
- ✓ Build a sustainable facilitator practice with practical foundations: session planning, client journey, intake, communication, and responsible marketing.

FAQ's

WHAT IF I START THE TRAINING AND CHANGE MY MIND? CAN I WITHDRAW AND RECEIVE A REFUND?

There is a strict no-refund policy once we officially open at the opening circle. Before you join, consider thoughtfully if this is the right next step for you, and bring all of your questions to your connection call with Jenni to feel into it before you say 'yes'. If your circumstances change at some point during the training meaning you need to withdraw, but your heart wants to continue, we will come to an arrangement for you to attend the next training so you can complete your certification.

I AM NOT ABLE TO ATTEND ALL OF THE ONLINE CALLS OR THE IN-PERSON IMMERSIVE... CAN I STILL DO THE TRAINING?

It is a requirement that you attend 70% of the online calls, and 100% of the in-person immersive days. All dates and times are shared in this guide, so you have the opportunity to plan ahead for anything that might prevent you from fully committing.

I AM NOT SURE HOW I WANT TO USE BREATHWORK IN MY CURRENT PERSONAL OR BUSINESS PRACTICE. SHOULD I STILL APPLY?

Absolutely! As you embrace these practices and go through the training you will find that the pieces slowly come together to reveal to you how you might share them in the future. This is also something you can discuss with Jenni before you join the training, or something that can be discussed and developed in your mentorship calls.

I AM CURRENTLY TRYING TO CONCEIVE/GET PREGNANT ... WILL THAT IMPACT THE TRAINING?

Pregnancy is one of the contraindications for many breathwork practices. Nevertheless, there is always an alternative way to participate that is safe for you, and pregnancy won't impact your ability to learn! The question here comes down to your own preferences of the journey and if you are okay with a different level of participation.

WHAT IF I GET BEHIND WITH THE CONTENT OR FEEL LIKE I'M OVERWHELMED?

This training is a commitment of your time, energy and resources, and will require some pre-planning in your schedule to give yourself enough space for learning, connecting and integrating. The way the program is guided, is to allow for that space, which is why there is one focus for each month. If at any point you do feel overwhelmed, you can talk with Jenni to find the best possible support for you to feel back on track. Regardless, it is important that you consider that the learning doesn't stop outside of each call. There will be assignments to support you in embodying the principles and practices of becoming a trauma-informed breathwork facilitator.

DO YOU HAVE SCHOLARSHIPS?

Each cohort has x2 scholarship spaces which offer €300 reduction in training fees. This option is for those with low income who have a deep desire to serve, and couldn't make it happen any other way.
